Project Management

Education

Minneapolis College of Art and Design

BFA, Interactive Media Design

2002 - 2006

Work Experience:

Webster Interactive, LLC.

Lead Designer

May 2011 – Present

As the lead designer for our 7-person office, I am responsible for the conception, process and finalization of graphic products. Working directly with clients, through external project managers, or as a leader of up to 4 designers and programmers, I have successfully produced a variety of digital and print products.

One of my most successful projects is the redesign of the desktop and mobile sites for UC Health and their affiliated hospitals. I worked directly with the Head of Design at UC Health to update their website while maintaining brand integrity.

Other prominent clients include: Cincinnati Bell, US Bank, Disney, and Time Warner Cable.

Activision

Quality Assurance Tester

September 2007 – October 2010

Responsible for testing gameplay and menu systems of software, ranging from high dollar branded tie-in console games to simple iOS mobile games.

Seward Inc.

Digital Coloring Specialist

April 2008 – March 2009

Hired to assist with digitally coloring hand-drawn graphics for implementation into a Flash e-learning program.

Freelance Graphic Designer

May 2006 – May 2011

Website and brand design utilizing Adobe Creative Suite and basic web coding (html, php).
